AIHM was founded by Minor Hotels, Asia's largest hospitality company, as well as the world's fastest growing. Our programme is the only one in the world to immerse students in the everyday operations of a luxury hotel, building management acumen from day one.

Real-life skills are taught by lecturers with real-life hospitality experience, as well as decades in the educational and business sectors. Students pursue a well-rounded curriculum that balances practice and theory, equipping them with key business management skills that are transferable to a wide variety of industries.

They also take on prestigious internships during the programme, which gives them an edge when they graduate. With over 500 properties on six continents,

students can intern at Minor Hotels properties around the world, learning from different cultures and working environments. Upon graduation, they leave with a professional network of over 35,000 members already in place. They also enjoy preferred employment status with the company, as well as the possibility of joining its graduate trainee programme with a fast-track to management.

WHY HOSPITALITY?

A career in hospitality opens doors to the world. Life is glamorous, progression is quick for those with a drive to succeed, and you have the freedom to travel and work anywhere you choose.

BUSINESS CAREERS

All our students graduate with solid business foundations. These enable them to pursue any corporate role or even launch their own start-up.

A DYNAMIC LEARNING STYLE

The learning experience at AIHM is student centred, individualised to each student to give them the best chance to succeed. A low student-teacher ratio ensures constant interaction in the classroom. Our “digital campus” prepares them for innovation and the workplace of tomorrow.

While academically rigorous, our programme also allows students the freedom to design their own journey of learning, in terms of timing, internships, exchanges and specialisations. Assessment is holistic, ensuring that students acquire skills they will need for real-life work.

A COSMOPOLITAN COMMUNITY

AIHM is located in one of the most popular tourist destinations in the world. It also happens to be safe, friendly, vibrant and cosmopolitan, ensuring a positive student experience that they will cherish long after their time with us.

AIHM itself is a welcoming and inclusive multicultural community, with students from around the world. A high level of pastoral care, tutoring and career guidance is given by dedicated faculty, and scholarships and student aid are offered to bring the brightest and best to AIHM regardless of financial circumstance.

Throughout their time with us, we build confidence in our students and empower them with the skills and opportunity to choose their path in life, whether it be in hospitality or any other field.

THE BBA PROGRAMME

The Bachelor of Business Administration in Global Hospitality Management is spread over seven semesters, or three and a half years. Students will pursue a fixed curriculum of practical arts, general management, and more specific to hospitality, revenue and customer relationship management. They are able to choose where they intern and what they specialise in, whether financial performance management, digital marketing or hospitality entrepreneurship. They can also opt for exchanges in Crans-Montana or Marbella, and transfer for their final year to the Les Roches BBA programme.
